

CX80 HYBRICX PREMIUM

General purpose adhesive with a high modulus of viscosity and high penetration capacity. One-component adhesive does not react with the surface, curing at room temperature, used for the installation of a high strength joint.

PROPERTIES:

- ready to use
- hybrid technology (combines the best properties of silicone sealants and polyurethane adhesives)
- cures in contact with moisture
- high strength bonding
- consistency prevents adhesive flow
- completely odorless and solvent-free
- perfect for smooth and porous surfaces
- excellent adhesion without primer
- can be painted and sandblasted

APPLICATION:

- bonds almost all areas – ceramics, wood, metals, plastics, concrete etc.
- elements exposed to difficult operating conditions (eg. sealing natural stone)
- fastening elements exposed to vibrations and high speed
