

CX80 RC 38

Anaerobic adhesive for mounting cylindrical parts providing high strength. Remains liquid until isolated from oxygen in the presence of metal ions.

PROPERTIES:

- resistance to high temperatures
- high strength
- protection against corrosion
- resistance to vibration
- improves the uniform distribution of stress
- initial binding to 15 minutes
- full strength after 24 hours
- temperature resistance from -55°C to +150°C

APPLICATION:

- permanent binding and protection of rotating components
- assembly of steel bearings, wheels, gears, pulleys, sprockets
