

## CX80 MULTI-PURPOSE LUBRICANT • TEFLON®

An excellent multi-purpose product with exceptional quality of lubrication which can be used in many different industries and in the area of everyday life.

- the result after using is a coat which improves the resistance to abrasion and increases the working life
- the low-friction coefficient characteristic of TEFLON®, leading to high efficiency for electrical connections, structural fittings, military equipment, and in many other areas in which a repetitive movement of the surface is important
- plays a major role in the bicycle industry, ideally suited for the lubrication of chains, gears, brake lines, gears, increases their working life and reduces friction between the elements and their wear and tear
- also suitable as anti-adhesive agent
- can be used in the process for formation of rubber and plastic components, it does not affect the stability and it makes it easier to release from the mould parts

Teflon® is a registered trademark of The Chemours Company FC, LLC. (DuPont), used under license by CX80.
