

## CX80 SILV WELD

**Two-component, transparent epoxy adhesive for general use.**

### PROPERTIES:

- easy application
- fixes after mixing the two components
- high strength
- moisture resistant
- due to the long time shelf life and medium viscosity adhesive is ideal for large surfaces and where long period of time is required to set the parts to be bonded
- perfect for all types of metal, ceramics, wood, glass, rigid plastics and many others
- withstands temperatures up to 150°C
