INTERPUMP

LIFT AND MATERIAL HANDLING APPLICATION

COMPACT STRUCTURE:

- Easy installation
- Space saving
- Lightness

HIGH FLEXIBILITY and SMALL BEND RADIUS:

- Reliability with low bend radius

PERFORMANCE:

- Tested up to 1.000.000 impulse cycles according to ISO 6803

HIGH OZONE AND ENVIRONMENTAL RESISTANCE:

720hrs @ 50 pphm and 40°C according to IS 7326

The high ozone resistance and elasticity of the IMM superior range cover ensures the best reliability also with small bend radius, avoiding the cover cracking.
